** CANADA. 28153 CW, Oct 23 at 2204, beacon: VE3IDS/B EN94 - the complete message repeating. WGB list: ``28153 VE3IDS/B - Owen Sound ON CAN EN94ll - #0 (22 Oct 2024) Note: ID + grid + 10" off power 5w`` - Band is chock full of beacons so I just log the first one, tuning up. QRZ.com: ``VE3IDS Canada flag Canada, Donald B Richards, 137064 Conc 7, Owen Sound, ON N4K 5N5, Canada`` Below a photo gallery of scenic spots but mostly equipment: ``2024 June -- I have put a 10 metre beacon on the air. It is on 28.153 at 5 watts to a 110' doublet at 40' AGL The rig is a radio shack htx 100. Please email reception reports to ve3ids.don@gmail.com 72/73, Don ve3ids`` (Glenn Hauser, OK, WOR)

** CHINA. 21530, Oct 20 at 0055, JBA Chinese is the OSOB so also the SSOB: CNR1 jammer against SOH; EiBi shows CNR1 DRM could also be on here, but not now (Glenn Hauser, OK, WOR)

** CHINA [and non]. 15340, Oct 21 at 1457 song, 1459 quick Chinese announcement, 5+1 timesignal to 1500, another announcement, open carrier and soon cut. It`s the SSOB. Aoki shows CNR1 jamming and SOH relaying RFA at 2130-1703, and only other 15340 is RRI in Romanian at 1300-1500. No sign of that but might have closed just before I intuned; rather not listed by EiBi, probably one of their suspensions (Glenn Hauser, OK, WOR)

** COLOMBIA. 10125 CW, Oct 17 at 0638, HK3QQ, BOGOTA with QWETY+ keyboard letters slowly with pauses. Looks like becoming regular again, 24 hours? (Glenn Hauser, OK, WORLD OF RADIO 2265)

** COLOMBIA. 10125 CW, Oct 18 at 0638, HK3QQ with keyboard letters. I don`t hear this in the daytime, off or just not propagating? (Glenn Hauser, OK, WOR)

** COLOMBIA. 10125 CW, Oct 19 at 0627, HK3QQ at S5, usual Spanish keyboard letters with errors (Glenn Hauser, OK, WOR) {also Oct 23}

** CUBA [and non]. 1141 kHz, Oct 20 at 0304, the het upon 1140 stations mainly XEMR, is back from presumed Cuba so the power must be back on. Immediately retune to 890 to check for 889/891 carriers, not yet, but WLS news is just now saying that power has been restored (Glenn Hauser, OK, WOR)

** CUBA. 11860 & 11930, Oct 19 at 0630, Cuba fails to jam against nothing, since there is an island-wide power failure! 5025 Rebelde also absent, but not unusual even when power is on. Press about that:

2041 GMT Oct 18, New York Times via Brock Whaley, Aiken, SC:
``Power Outage Plunges All of Cuba Into Darkness -- The Cuban government had just announced emergency measures to reduce electricity use — then the power went out across the entire nation.

Cuba’s power grid failed and the entire nation plunged into darkness Friday, less than a day after the government stressed the need to paralyze the economy to save electricity in the face of major gasoline shortages and large-scale, regular outages.

The electricity went out nationwide Friday morning after a failure at a thermoelectric power plant in Matanzas, east of Havana, Cuba’s Energy Ministry said on X.

The blackout came less than a day after the prime minister, Manuel Marrero Cruz, held a late-night television address with state officials to discuss the ongoing electricity crisis, which experts said was the worst the nation — long accustomed to food and electricity shortages — had ever experienced.

For weeks, the country has lacked the fuel to run the power grid, which has left large parts of the nation without electricity for 15 to 20 hour stretches.``

Via Vince Cavaseno, Mashpee MA, IRCA:
https://www.nytimes.com/2024/10/18/world/americas/cuba-power-plant-blackout.html?unlocked_article_code=1.TE4.RWck.J1POdodh4z49&smid=url-share

And from RHC itself via Mike Cooper:
https://www.radiohc.cu/en/noticias/nacionales/367734-cuba-combatting-the-electro-energy-challenge
(Glenn Hauser, OK, WOR)

** CUBA. 6000, Oct 20 at 0109 still no signal from RHC which might be on if power be restored. Nor at 0306, but now 5025 R. Rebelde is back with normal bigsig S9+20/40 (Glenn Hauser, OK, WOR)

** CURACAO. 28340 USB, Oct 23 at 2206, rapid contacts as if contesting, despite frequent utterances, and fonetix, I can only understand partial call, PJ3 or 2 --- ON. None of his numerous piledup North American contacts ever mention his call! I declare that such QSOs should be nullified unless both stations mention their own and their contact call at least once! I have to find him at DX Cluster/dxheat as: PJ2/DL30N: ``DL3ON Germany flag Germany, Leon Martin Hellmich, Lauffener Weg 2/1, Neckarwestheim 74382, Germany`` - nothing about Curacao there but has operated from several other countries. 10m band is packed, also with beacons but I log only one, from Canada, q.v. (Glenn Hauser, OK, WOR)

** GUATEMALA. ``Onda Corta 4055: Dear Dr Madrid, I check for your signal almost every night, but nothing heard so far. Two months later, are you still expecting to put the new transmitter on air soon? Hope your clocks are working OK now. Regards, Glenn Hauser`` Oct 21, to R. Verdad. Reply Oct 22:

``Dear Glenn: Thank you for expecting Radio Verdad. I am waiting this month for our new and modern SW transmitter, which was factored in Frankfurt, Germany. I am making custom tax arrangements already. Whenever our new transmitter is ready to go on air, I will announce it on Facebook. Thank you again for your interest on Radio Truth International. May God be with you. Dr. Édgar Amílcar Madrid, Radio Truth International, Chiquimula, Guatemala, C. A.`` (Glenn Hauser, OK, WOR)

** ITALY [non]. 7285.003-, Oct 21 at 1840, gospel huxter in English, must be IRRS hour via Bulgaria or Romania, S9+15 into UTwente. I have been assuming it`s really on 7290 as per EiBi, Aoki, and latest HFCC Oct 18, and that the s/off announcement for ``7285`` heard on 1323 at 1900 were incorrect. Have they always A24 been on 7285 or switched at some point? Nothing on 7290 now, and nothing scheduled this hour on 7295 either to ACI. 1859 indeed NEXUS/IBA s/off 7285 to continue on 1323. Chopped off before can finish uttering website, but carrier stays on to 1900.5 concluding with a tone. Now the B24 sked has been posted, and it shows 7290, but still at 18-19 UT, not an hour later and not 7285:
https://www.nexus.org/member-services/radio-and-tv/schedules/b24-schedule/
{furthermore, HFCC A24 shows DRM from NZ on 7285 to 1845, but fortunately not really in use per own sked} (Glenn Hauser, OK, WOR)

** MEXICO [and non]. 800, Oct 20 at 0101 UT, heavy distorted music QRMing KQCV, so now I have heard XEERG NL earlier than late at night (Glenn Hauser, OK, WOR)

** NETHERLANDS. 6169.995, Oct 18 at 1905, very strong signal into

UTwente, Dutch announcement and rock music. It`s Radio Delta, 1909 inviting reports, in English. So will it be transmitting RSOA in an hour? I was checking for R. Sound of Africa per this notice at 1840 on HCDX: ``From: RSOA <radiosoundofafrica@gmail.com>
Subject: [HCDX] UPDATE - Radio Sound of Africa on air with tests on 6170/5 kHz
Radio Sound of Africa, with its unique format of music from all over Africa, has resumed its test broadcasts on shortwaves. We are on the air as follows:
on 18th, 19th and 20th October
from 0400 to 0500 UTC on 6175 kHz
from 1400 to 1600 UTC on 6170 kHz.
from 2000 to 2200 UTC on 6170 kHz
Please check and if you hear us send a reception report to:
radiosoundofafrica@gmail.com - Radio Sound of Africa``

Not rechecked until 2017, when it`s not RSOA on 6170 but ID for R. Delta AM, in English, then Dutch, bit of Beethoven`s Fifth, S9+10/15 into UTwente (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6965 USB, Oct 20 at 0057, music and right into Wolverine Radio ID and then SSTV beepery, S9/+15. Many more reports here including a clear image of that same SSTV:
https://www.hfunderground.com/board/index.php/topic,135373.0.html
(Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6950 usb, Oct 20 at 0058, song at S8 vs high storm noise level = HSNL from eastern New Mexico {flooding Roswell}. These say it`s Sycko Radio, which I understand is pronounced ``psycho``:
https://www.hfunderground.com/board/index.php/topic,135371.0.html
(Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6970+ AM, Oct 20 at 0308, S9+10/20 of dead air, presumably an unID pirate, now the OPOB. Others reported music earlier, on and off:
https://www.hfunderground.com/board/index.php/topic,135382.0.html
(Glenn Hauser, OK, WOR)

** NORTH AMERICA. 11529.896, Oct 19 at 1510, JBA carrier direct from Hikari FM pirate, allegedly in Sonora; at 1539 into Utah SDR when measured, correctly calibrated with WWV, music with heavy disco beat, S9; 1601 pause for quick produced announcement, unreadable but unseems Hikari ID. Also still at 1916, S8 disco beat = twice per second or 120/minute. See also UNIDENTIFIED (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 11529.9, Oct 20 at 1449, JBA music S5/S6, presumed pirate Hikari FM allegedly in Sonora, signature offset (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 11529.9, Oct 21 at 2208, JBA carrier from presumed Hikari FM pirate in Mexico, on signature offset, and still often reported by Rick Barton, AZ (Glenn Hauser, OK, WOR)

** OKLAHOMA [and non]. 930, Oct 20 at 0659 UT, dead air from WKY OKC, past 0700 during which I catch an ID for KCCC, Carlsbad NM, which is only 60 watts at night. WKY resumes about 0700.5 with `sports animal` WWLS ID. That`s 98.1, also on 640. No mention of WKY itself? Not sure (Glenn Hauser, OK, WOR)

** OKLAHOMA [and non]. 1000 kHz, Oct 20 at 0302 UT dead air obviously from my nearby KTOK OKC, presumably during newshole, maybe failed to switch inputs compared to surrounding talk programming. Allows me to hear under it some ESPN station, surely 50 kW WMVP Chicago, not 100-watt KSOO Sioux Falls (Glenn Hauser, OK, WOR)

** OKLAHOMA. 27184.50 AM, Oct 18 at 2336, gospel music bigsig // 105.5 FM, K288FX, translator of KYLV 88.9 ``K-Love``, from local Enid CB pirate, first time heard again in a while, but with equally strong spoiler AM carrier on 27184.91 making huge het, but can be avoided by LSB tuning. Same on 27224.81 AM with no spoiler.

Also: 27184.50 AM, Oct 19 at 1514 // 105.5 Hallelujah song, no spoiler carrier but plenty of skip QRM; and also 27224.83 AM (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 27184.4 & 27224.9 approx., Oct 21 at 2205, Enid CB pirate relaying gospel music // 105.5 FM K288FX translator of K-Love, KYLV 88.9 OKC. No carrier spoilers this time but heavy skip QRM on both (Glenn Hauser, OK, WOR)

** SAUDI ARABIA. 11934.893+, Oct 18 at 1531, Arabic talk, S9+10/20 into UTwente, still no chirping QRM upon Rep. of Yemen Radio (Glenn Hauser, OK, WOR)

** SPAIN. 17855, Fri Oct 18 at 2201, token English from SNR, S9+20/30 direct, also audible on 17715, 15520, never 15390. Already missed preview of topic as news is starting. For B24 from Oct 28, expect this to be on 9690, M/W/F at 2300 (Glenn Hauser, OK, WOR)

** SPAIN. 17855, S9+20/30 direct //>17715 >15520, Monday October 21 at 2200, token English from SNR. Preview topic to be about diversity etc. in sports. 2210 interviewing someone with too-heavy accent about Lebanon at war since Israel attack Sept 23, but is staying in Leb with wife and daughter: until 2212 it`s by REE`s Beirut correspondent, a woman whose name I can never catch; and how come their only regular foreign correspondent at least in the English service, is in Lebanon? 2212 about Brit embassy sponsoring something about sports diversity (Glenn Hauser, OK, WOR)

** SPAIN. 15390, Oct 23 at 2200, the REE Africa frequency is finally back on! Weakest of the four. I had last heard it on August 23; by next token English broadcast Aug 26, it was missing, and ever since. As usual it`s the weakest at unfavorable angle for us, less than 15520 < 17715 < 17855, the last being S9+30/40 direct. BUT now there is another problem: it`s Wednesday and there is NO ENGLISH!! 2200 keeps right on in Spanish about flora or fauna in Africa and Canarias. Could not catch program title but said something like ``doble-L tres punto cero``. Looked up later on websked, indeed ``today`` jueves 24 at 00:00 local, it`s ``Doble Hélice``, a sci/tech show; followed by usual French as also heard. Looking ahead a few days, English is still shown for Sat 26 & Tue 29 at 00:00, i.e. Fri 22 UT and Mon 23 UT! So was this a one-off pre-emption, or what? Something`s messed up in Madrid. And isn`t it incredible that supposed ``international`` broadcasters make listeners abroad adjust to their own local clock changes, which should be irrelevant.

REE`s confusing B24 sked at HFCC:
http://www.hfcc.org/data/schedbybrc.php?seas=B24&broadc=REE
pretends everything is in Spanish! The possible frequencies M/W/F at 2300-2300 when English is expected: ME 12030. Af 17755 or 21620. SAm 17715 or 11940. NAm 17855 or 9690. Likely the lower ones really in use, the highers as alt/backup? PLUS a separate broadcast, the only one at 302 degrees azimuth, further west toward N America than 290 for the rest, this one on 15110 at 2000-2400 daily. But that would require 5 transmitters at once: anticipating the first new one? Power for each as 200 kW. Hours and frequencies are quite different weekends (Glenn Hauser, OK, WOR)

** TURKEY [and non]. Re VOT on 11785.014- at 2233 Oct 16: ``Glenn, the "higher offset than usual" you 'measured' using UTwente yesterday, Oct

16, was caused by a malfunction for their AMSync-Function. They were 4 Hz +.

This function is derived at UTwente by using the German Mainflingen timesignal DCF77 on 77.5 kHz. However this was off for one hour during late European afternoon from 1315 to 1415 UT, when they returned, they had some further two breaks in transmission. See attached pic from a snippet out of yesterdays' UTwente fulltime-waterfall-display. I noticed this non function of AMSync mode a couple of time these last years, with AMSync sometimes 100 to 200 Hz away from carrier. It usually takes a couple of hours for AMSync to be syncronized with DCF77 again. BTW, Kiwi's use GPS data for AMSync - it is called SAM on the Kiwis.

See, you logged SW Gold Radio on the 16th as well, with 4 Hz above frequency {6160.004+ at 1813). Listened yesterday to WOF on 6145.004 at around 1915 UT and thought what`s wrong there. WOF is always "on spot". As I said in a post before - UTwente is not the 'Gold Standard' - antenna wise, high noise floor levels and often heavy interference on certain parts of the band. Cheers from Bremerhaven, Lesley Illingworth``

So need to check calibration of UTwente against WWV if audible, and also of KiwiSDRs (Glenn Hauser, OK, WOR)

** TURKEY. 11785.007-, Oct 18 at 2159, VOT not off the air with IS, 2200 accurate timesignal and s/on, S9+20/30 direct. At 2227 into UTwente when measured, S9+15/25 but much clearer, with `Turkish Folk tales`. 2252 s/off as if it had been the 1230 broadcast on 17620 -- something`s always awry at Ankara; 2253 IS; 2256 restart IS with German IDs to chop 2259* -- something`s always erroneous at Emirler. BTW, as expected in B24, this shifts to 5960 at 2300 UT (Glenn Hauser, OK, WOR)

** TURKEY [and non]. 11785.004, Oct 19 at 2200, VOT English not off the air, but might as well be, VP *marginal* signal into UTwente, S8/S9 on meter but with flutter. Propagation disturbance? K index at 21 only 3 and 2/3. Unlistenable but I let it run and recognize some program outros/themes: 2221 `The Energy Agenda`, music. 2230 `Turkey`s Geomarked Products`, music. 2251 headlines of the olds. Now it`s drifted to 11785.002+ and slightly stronger S9/+5. 2254 s/off as if this had been the 1230 on 17620. Something`s always awry at Ankara. 2254.7 IS for a semiminute until off 2255.3*.

I immediately retune UTwente to 11800 and catch the sign-off of simulEnglish from ROMANIA: It`s blasting in loud and clear, VG S9+25 and one IS to 2256*. Therefore, awful reception of VOT is *not* due to propagation: could be on much reduced power and/or more likely totally wrong antenna not aimed toward WEu as supposed to be, 500! kW at 325 degrees from Emirler, where something`s always wrong. RRI 11800 is only! 300 kW at 300 degrees from Galbeni, per HFCC (Glenn Hauser, OK, WOR)

** TURKEY. 9875.006-, Sunday Oct 20 at 2040, I`m catching VOT Letterbox early again instead of after 2200 on 11785. Into UTwente, at first there is lite CCI from an understation, North Korea? but gone long before scheduled to -2050. S9+5/15, VG. 2056 multi-lingual ID filler reel. 2058 `Letterbox`, surprise with new host, a woman, not the accentuated one, whew, who had just delivered the olds. Her name is Oztan or something like that, says has been with VOT English for 25 years, and Halil Ibrahim has been transferred to the news department - language?

VERY different presentation, no floundering around unable to read handwriting, hardly any personal off-the-cuff remarx, apparently

planned if not scripted, brief greetings to 18 listeners, far more than H could get to before running out of time. But most of them pro-forma, tnx for listening on cited dates, QSL will be sent ASAP, best wishes, etc., etc. At opening and closing she - finally! - spells ``Yenisehir``, not bothering with the s-cedilla or sh, and gives the PO Box 333 instead as PK 33. Again there are many familiar names of regular writers. I number them and try to keep up, guessing spellings:

1) Jayanta Chakraborty, New Delhi. 2) Annan --, India, has listened for 40 years. 3) Matthew Iliff?, refers him to trtvotworld.com. 4) Siddartha - India, mentions International Tourism Day, 29 million of them to Turkey in first 7 months this year. 5) Sirvan? Paul?, West Bengal. Breaks for song by Alera Tikye? and title?? 6) Andrew Kuznetsov, Riga, Latvia. 7) Christer Brunström, Sweden, comments about proportion of women in civil service, parliament, etc., in answer to a question? 8) Mohamed Shamin?, Kerala. 9) Francis -?, Dublin. 10) Chandra?, W Bengal with only personal comment: she, the host I think, takes care of stray dogs and cats, and World Food Day; but not as food, I assume. 11) Najum?, W Bengal. 12) Andrew Kuznetsov, Russia. 13) Anatoly Klepov, Moscow. 14) Lithuania. 15) Mohamed Bashan?, Pakistan. 16) -- Hussein --, Pakistan. 17) someone from Ithaca, USA. 18) Alokesh Gupta, New Delhi, wants winter sked but they don`t have it yet. [I do! The 2030 will be at 2130 on 9610 and the 2200 at 2300 on 5960.] 2113 song. 2115 outro show. 2116 theme and program ID with Halil? voice. 2200 UTwente recheck, 11785.007- is not off the air but S9/+15; by 2230 built up to S9+45/50 (Glenn Hauser, OK, WOR)

** TURKEY. 11785.007+, Oct 21 at 2158, VOT English not off the air, IS at S9+20/30 direct. 2201 olds leading with a terrorist ringleader has died in the USA which refused to extradite him. Involved in attempted coup 2016 at Istanbul airport. Could not catch his name but major US newssites today can be reached searching on Fethullah Gülen. 2235 into UTwente when measured, S9+15/20, sounds like `That`s Why`, 2239 music. 2243 ``always-by-your-side`` promo, music. 2242 TRTVOTVorld.com promo, music. 2251 ``with-you-every-hour`` promo. 2252 s/off the 1230 on 17620, never mind now. Something`s always awry at Ankara. 2253 IS until 2255.5* (Glenn Hauser, OK, WOR)

** TURKEY. 11785.020-, Tue Oct 22 at 2216 into UTwente, S9+40 VOT English further above than usual but accurately calibrated vs WWV 10000, during music. 2220 `That`s Why` about déjà-vu. 2225 music. 2230 `Weekly Commentary` by someone from TRTWorld itself, about the US presidential elexion. 2240 music. 2245 `Turkey`s Geomarked Products``, a dessert made of beet sugar, walnuts and some other important ingredient I could not understand nor the name of the concoxion, as usual associated with a particular geographical area, same recipe since 1850. 2247 music. 2252 s/off as if this were 17620 at 1230: something`s always awry at Ankara. Brief IS to 2253* (Glenn Hauser, OK, WOR)

** TURKEY. 11785, Oct 23 at 2200, VOT English not off the air, S9+20/30 direct at s/on. Distracted as usual by SPAIN and 10m ham activity; 2215 discussion of cardiac technology such a wireless pacemakers. -2220 outro as `Unexpected Twists of Fate``. Then I`m on Maryland SDR where it`s sufficient, rather than UTwente: 2221 announces new English schedule from 27/10, as I have already found via HFCC: 1330 13635; 1930 6050; 2300 5960. 2030 9610. 1730 9660. BUT she does not mention any broadcast at 0400: Is it being canceled? Probably not; something`s always awry at Ankara. 2222 `Sports Panorama`, 2233 `The Middle East and Turkey`. 2252 recheck with IS after s/off, to 2253* (Glenn Hauser, OK, WOR)

** U S A [and non]. 379 MCW kHz, Oct 22 at 0702 UT, two JBA beacons mixing at almost same pitch, making it very difficult to copy IDs, but

one is RU. That`s really RUE, 25 watts at Russelville AR. RNA list notes that the E is missing. Only a few others possible on 379: BRA Asheville NC, 100 or 400 watts, DL DuLuth MN, UG WaUkeGan IL, YPQ Peterborough ON. Also JB audible in this scan: 293 FBY FairBurY NE, 346 YXL SiouX Lookout ON (Glenn Hauser, OK, WOR)

** U S A. 29620 FM, Oct 23 at 2159, I turn on the R75 still tuned here and that unknown repeater is again/still there, as N5TZH is trying to make contact thru it. QRZ.com: ``N5TZH USA flag USA, RICKY D PARKER, 202 PARKER RD, JONESVILLE, LA 71343, USA`` - does that mean the repeater is near him, or is he skipping input to it? (Glenn Hauser, OK, WOR) See also UNIDENTIFIED

** U S A [non]. WORLD OF RADIO on Shortwave Radio, GERMANY, B24 changes:

``Hi Glenn, I can confirm most WOR airings will be one UT hour later, so we can
stick to local European time for listeners' convenience. However, we had to cancel five late afternoon and evening airings. This is a result of China insisting not to leave 6160 with their so called 'German Program' - just playing music which is ludicrous. There will be the chance of additional airings of WOR on 3975 but let's wait and see how winter conditions evolve. So here we go with WOR time via SWR as of 27th October:

2330 UT Friday SW Radio, Germany 3975;
1530 UT Saturday SW Radio, Germany 6160;
1830 UT Saturday SW Radio, Germany 3975 +++& 6160 - cancelled+++
2230 UT Sunday SW Radio, Germany 3975 +++& 6160 - cancelled+++
0930 UT Monday SW Radio, Germany 6160;
2030 UT Monday SW Radio, Germany 3975 +++& 6160 - cancelled+++
0030 UT Tuesday SW Radio, Germany 3975;
2030 UT Wednesday SW Radio, Germany 3975 +++& 6160 - cancelled+++
1730 UT Thursday SW Radio, Germany 3975 +++& 6160 - cancelled+++

Our official B24 schedule looks like this:

6160 kHz: 0800 UT to 1600 UT
3975 kHz: 0800 UT to 0100 UT

Thanks for shows and good work. Always appreciated. 73s Andy (Engineer, Shortwave Radio from Winsen at the river Aller, Germany)`` (Glenn Hauser, OK, WOR)

** U S A. WORLD OF RADIO on WRMI: checking the skedgrids I see that a couple new times have slipped in without notice, and to be confirmed: Tuesday at 1400 on 9955 - in addition to one hour earlier at 1300! And Friday at 1300 on 15770: that would make it the first SW airing each week on WRMI or anywhere.

From Nov 3 after DST go off, some WRMI frequencies shift everything one real UT hour later: 9955 and 9395 affecting WOR; while 5010, 7570, 7780, 9455 and 15770 stick to the same UT. Barring any further changes, some WRMI System B not 9955 webcast only times also laten (Glenn Hauser, Oct 22, WOR)

** U S A [and non]. WORLD OF RADIO 2264 monitoring: confirmed UT Thursday October 17 at 0130 on WRMI 5010, S5/S7 into Brasília SDR vs storm noise.

Also confirmed Thursday October 17 at 1630 on SW Gold Radio, Germany, 6160.001-, S9+5/15 into UTwente. This time I compare its calibration to JBA WWVs: 19999999.8 and 24999999.5 - close enough! But later at 1657: 24999998.57/.55v, 19999999.64/.76v

WORLD OF RADIO 2265 contents: B24; Austria and non/AWR, Australia, Brasil, Canada, Chile and non, China, Colombia, Finland, Germany, Guam, Indonesia, International scouting, Israel, Korea South non, (Madagascar), Malaysia, (Mexico), Nauru, North America, (Oman), (Philippines), Russia, Solomon Islands, Sri Lanka, Taiwan, UK and non, USA, Vanuatu, Vietnam non; propagation outlook - (countries mentioned along with others not in order)

1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2265 monitoring: confirmed Friday October 18 at 2200 on WRMI 9955, S9+10/20 direct but undermodulated; no jamming as entire Cuba is blacked out, tsk3.

Also confirmed Friday October 18 at 2230 on SW Gold Radio, Germany, 3975.003-, S7/S9 into UTwente.

NOT confirmed UT Saturday October 19 at 0300 on WTWW 5085: cut off the air at precisely that time, I know not why.

Confirmed Saturday October 19 at 1436 the 1430 on SW Gold Radio, Germany, 6160.001-, S9/+5 into UTwente with dittering QRM from 6164. Followed after 1500 by Weekend Music Radio at 1525 check.

Also confirmed Saturday October 19 after 1600 on WRN North America webcast.

``World of Radio heard on 6160 on Shortwave Gold at 1730 via a SDR in Netherlands - Ron Trotto-WDX4KWI, Virden, Illinois, USA``

Also confirmed Saturday October 19 at 1734 on SW Gold Radio, Germany, 6160.001+, S9+15 into UTwente but heavy ACI from 6165 CRI English and 6164 RTTY - unless LSB tuned with reduced bandwidth. Also a few syllables behind on 3975.003-, S9+8 with no QRM.

Also confirmed Saturday October 19 at 1930 on WRMI webcast only, and on WRN North America stream.

Confirmed Saturday October 19 from 1940 the 1930v on WA0RCR, 1860 AM, MO, S9+17 by groundwave into nearby SDR. Next:

2300 UT Saturday WTWW 9475 [irregular];
0000 UT Sunday WRMI 9955 to SSE [also web-, phonecast; jammed?];
0230vUT Sunday WA0RCR 1860-AM [nominal 0315; as late as 0500];
1900 UT Sunday IRRS 1323-Italy;
2130 UT Sunday SW Radio, Germany 3975 & 6160;
2330 UT Sunday WRMI 7570 to NW;
0030 UT Monday WRMI 7780 to SW;
0300vUT Monday WBCQ Area 51 6160v to WSW [irregular];
0830 UT Monday SW Radio, Germany 6160;
1930 UT Monday SW Radio, Germany 3975 & 6160;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast; jammed?];
2000 UT Tuesday IRRS 1323-Italy;
2330 UT Tuesday WRMI 9395 to NNW;

2330 UT Tuesday SW Radio, Germany 3975;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2265 monitoring: not confirmed Sat Oct 19 at 2300 on WTWW because 9475 is still off the air; tho 9930 is L&C with TOMBS.

Confirmed UT Sunday October 20 at 0000 on WRMI 9955, good into Georgia SDR, and sufficient into Pardinho, Brasil SDR.

Also confirmed UT Sunday October 20 at 0402 about 3 minutes into so started the 0315v circa 0359 on WA0RCR, 1860 AM, MO. Heavy storm noise direct but S9+18 into nearby remote.

Also confirmed Sunday October 20 at 1900 on IRRS SW via AM Italia, 1322.996- kHz, S9 into UTwente across Europe. Next:

2130 UT Sunday SW Radio, Germany 3975 & 6160;
2330 UT Sunday WRMI 7570 to NW;
0030 UT Monday WRMI 7780 to SW;
0300vUT Monday WBCQ Area 51 6160v to WSW [irregular];
0830 UT Monday SW Radio, Germany 6160;
1930 UT Monday SW Radio, Germany 3975 & 6160;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast; jammed?];
2000 UT Tuesday IRRS 1323-Italy;
2330 UT Tuesday WRMI 9395 to NNW;
2330 UT Tuesday SW Radio, Germany 3975;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2265 monitoring: confirmed Sunday October 20 at 2000 on WRN Europe stream.

Not confirmed Sunday October 20 at 2330 on WRMI 7570 since that transmitter is still off the air post-Milton; BUT on a hunch check other WRMIs which are on, and bingo! There I am on 7780 instead, poor S8/S9 direct - presumably a temporary fix as 7780 would otherwise not be on air until 0000 per skedgrid.

Also confirmed UT Monday October 21 at 0030 on WRMI 7780 again, S8/S9 into NA5B Maryland SDR, and S9+5/25 into NA5C Texas SDR = are those two related?

Also confirmed UT Monday October 21 at 0300 on Area 51 via WBCQ 6159.928 into NH SDR. This signal lately has been JBA direct, power reduced?

Also confirmed Monday October 21 at 1930 on SW Gold Radio, Germany, 6160.001+, S9+5/15 into UTwente with RTTY ditter INTRUDER from 6164; and 3975.003+, S9+5/10. Next:

0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast; jammed?];
2000 UT Tuesday IRRS 1323-Italy;
2330 UT Tuesday WRMI 9395 to NNW;
2330 UT Tuesday SW Radio, Germany 3975;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;

2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2265 monitoring: confirmed UT Tuesday Oct 22 at 0339 the 0330 on WRMI 7780, S9+15 into NA5C TX SDR.

Also confirmed Tuesday October 22 at 1300 on WRMI 9955, S9/+10 direct and no jamming; as usual this one starts at ToH after music fill and no ID.

Also confirmed Tuesday October 22 at 2000 on IRRS SW via AM Italia, 1322.995 kHz, A9 into UTwente across Europe; preceded by Wavescan. Next:

2330 UT Tuesday WRMI 9395 to NNW;
2330 UT Tuesday SW Radio, Germany 3975;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

WORLD OF RADIO 2265 monitoring: ``From: Richard Lemke, St. Albert, Alberta, Canada, the desk of Richard's listening Post, Radio: JRC NRD-535 HF, Antenna: random long wires in the trees. Hello Glenn: WRMI, World of Radio #2265, 9395 kHz, 2330, ID 2345 as 2265, 2332, 2345, 2359 (55433), S9 signal, October 22 UTC 2024 [Tue] (Lemke, Richard -AB)``

Confirmed Tuesday October 22 at 2330 on WRMI 9395, S9+30 into Georgia SDR.

Also confirmed Tuesday October 22 at 2330 on SW Gold Radio, Germany, 3975.003, S9/+10 into UTwente.

Also confirmed Wednesday October 23 at 1930 on SW Gold Radio, Germany, 6160.001- at S9+10/15 and 3975.002+, S9+5/10 into UTwente.

Also confirmed Wednesday October 23 at 2100 on WBCQ 7490 -73 Hz = 7489.927, S8/9+10 into Maryland SDR. Followed what sounded like a hymn but J.P. said a few words to close. Next:

0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.

As a noncommercial service, financial support welcome such as a contribution via PayPal, not necessarily in US funds, to woradio at yahoo.com

Glenn Hauser, P O Box 1684, Enid OK 73702
(Glenn Hauser, OK, WOR)

** U S A. WTWW: ``Glenn, Bob forgot to remove my spot about Peters airtime on 9475. Thanks for the reminder. The 9475 transmitter driver inductor was cleaned and returned the transmitter to normal operation at 7 pm Central. We shall see what happens today at 7 pm. There is always some problem with transmitters. George McClintock 10-17-2024``
(Glenn Hauser, OK, WOR)

** U S A. 9475, October 19 before 0100, WTWW not on air here nor 5085, but on by 0101 with SFAW? preacher, S9+40/52 direct, so bodes well for WOR at 0300 --- NOT! 9475 unseems on the air at all lately, which may

nullify the only other scheduled WOR airing Saturday at 2300, which was missing last week (Glenn Hauser, OK, WOR)

** U S A. 9475, Oct 22 circa 0010, this WTWW is on presumably with SFAW. George McClintock tells me it`s currently only at 0000-0100 as there are still transmitter problems. Off at 0059* after announcing change to 5085. I guess that rules out WOR on 9475 which had been sked at 2300 Saturdays. 5085 does not come up immediately, but finally JIP a few sex before *0104. Its sked is 0100-0300 except UT Saturdays till 0330 with WOR. I suspect all this may shift one UT hour later from Nov 4 to stay at the same Central time (Glenn Hauser, OK, WOR)

** U S A. 17790, Oct 18 at 1509, no signal from WRMI, the last one missing post-Milton? 9455 also absent but has been erratic; 9395 & 9955 are on and audible, also 15770. At 2036, still nosig on 17790 into Pardinho. For B24, WRMI has registered a new one, 17775, 24h at 160 degrees: was old KVOH channel; wonder if RMI be ``holding`` it for them? Or an alternate for 17790 (Glenn Hauser, OK, WOR)

** U S A. 9455, Oct 23 at 0635, this WRMI is off, while 9395 & 9955 are still on. 9455 rather irregular, but had been on mostly since Milton (Glenn Hauser, OK, WOR)

** U S A. 7489.93, October 19 at 2359, S9+15/20 direct, FKB preacher gets 1-minute warning tone on WBCQ, quickly wraps up, but then dead air; Oct 20 at 0000, one canned ID interrupted by another, and finally Wm Tell Overture theme of `AAAWWW`. Considerable storm noise and I can`t copy all his interjexions. A&A are at home = Studio 9 in Deland of Floriduh, right into discussion of Hurricane Milton which hit them last week, so this one is live, and the Oct 12 one a rerun. Storm damage there but they hunkered down and were OK with power out for only 3 days. They were ready with Coleman stove for some hot meals. Also advises running lamps with charcoal starter fluid. Lots of big oak trees were blown down, not much damage to own property. HM spawned 137 tornados, one of which went nearby. Angela ``dresses up`` for the radio - I guess not seminude this time? Thanks God for Gov. Desantis in a ``MAGA state``. I suspend at 0015. At 0048 reads some Free Radio Weekly items from last week`s issue as this week`s not in yet, including ``new`` Hikari FM, my log on 11529.9 but not credited. Runs a minute overtime, 0101 JIP Hal Turner. Also checked 3265 and 5130 finding no signals, and 6160- was JBA direct (Glenn Hauser, OK, WOR)

** U S A. 4840, WWCR: one biweek ago I happened across this frequency after 0315 UT Sunday Oct 6, and was astounded to hear an `Australian DX Report` by Bob Padula that was soon very obviously more than FOUR YEARS OUT OF DATE! See my log about that. I planned to check the following week to hear what they would do then, but missed it. So this week I make a point of monitoring it from the start. He never explicitly gives a date it was recorded or to be originally broadcast. This contains some of the *same* totally outdated DX loggings, but it`s not identical. He starts by saying it`s almost summer time, so would that be November? Certainly not June as previously. The dead giveaway part about ``upcoming`` HFCC in Bulgaria canceled - which would have been August *2020*, is never mentioned. Also dead giveaways are the prop figures he cites initially: 10.7 cm flux at 70, SSN of only 5, IPS says NO sunspots, so the new cycle has not yet started (Now, of course, we are at solar max! someone could research exact date for those). All his logs were between 1800-1830 UTC on some unknown date, as if those would be of any particular use elsewhere even when they were fresh. For amusement, I copy down all his tips. If any of these are still correct, it`s pure coincidence!

``7210 CRI Urumqi in Russian. 7235 VIRI in Hausa from 1820. 7265 Madagascar BBC English. Music pause at 0318. 7280 VOV Spanish. 7290 Romania with IRRS English [YES! still so, tho IRRS announces 7285!].

7315 CRI Kunming. 7340 CRI Kashi English. 7355 Singapore BBC Korean. 7395 CRI Kashi German. 7415 CRI Xian Persian. 7445 Madagascar BBC English. 7465 Singapore BBC English. 7485 VOA Philippines Korean. 7540 VOA Udorn Pashto. 9360 RFA Kuwait Chinese. 9420 Voice of Greece Greek. 9460 Voice of Turkey Turkish. 9500 TWR Swaziland English. 9540 BBC Oman Oromo. 9750 BBC Vatican French. 9800 WBCQ Woofferton Arabic! 9820 KBS Woofferton French. 9900 BBC Tajikistan Korean. 9920 R Thailand Thai. 9940 TWR Swaziland Tigrinya. 9775 Woofferton with R. Ndarason International in KANNADA`` [SIC, it`s Kanuri, don`t you know that this is for Chad and Kannada is spoken in India?!?!]. Finishes at 0324, cut to music.

I repeat, what a disservice WWCR provides with 4-year-old DX `news`. Nor does Bob Padula himself know or care about this, or he could tell them to stop it (Glenn Hauser, OK, WOR)

** U S A. 660, Oct 21 at 0448 UT, C&W music S9+45, KTNN again on 50 kW ND day pattern at night. When this is not happening will be unusual (Glenn Hauser, OK, WOR)

** U S A. 770, Oct 22 at 0707 UT, immediately upon tune-in, ``77 WABC`` singing ID. Atop some CCI, maybe KKOB NM, which would normally be prime here if still on 12.5 kW ND STA (Glenn Hauser, OK, WOR)

** UZBEKISTAN. 9509.9, Oct 20 at 0117, S5/S6 JBA talk off-frequency; what could it be? Of course, as in EiBi, BBC English via Tashkent at 00-02; a site well-known? for offfrequenciness, and BBC apparently oblivious to such damage to its reputation (Glenn Hauser, OK, WOR)

** VANUATU. 9960, Oct 18 at 0635, R. Vanuatu back here after missing a few days, ``island music`` at S4/S6, vs 9955 WRMI S8/S9. But after 0700 moved to 3945 per Ron Howard monitoring remotedly (Glenn Hauser, OK, WOR)

** VANUATU. 9960, Oct 19 at 0625, R. Vanuatu, S7/S8 with announcements in Bislama; unchecked after 0700 (Glenn Hauser, OK, WOR)

** VANUATU. 9960, Oct 23 at 0643, R. Vanuatu in Bislama ``b`long`` talk, S5/S7 direct. Lately has been there every night before 0700, not always logged, but you never know when it will be gone again. 9955 WRMI not a problem (Glenn Hauser, OK, WOR)

** VATICAN. 15595, Oct 19 at 0632, VR in English, S7/S9, the SSOB along with = 15770 WRMI in Spanish. Lucky me, English quarter hour at 0630 to ME is scheduled Saturdays only per EiBi (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 11530.01 approx., Oct 17 at 0636, JBA carrier direct on the plus side, so maybe not Hikari FM which has always been on the minus side, 11529.9. Probably Dengê Gel or Turkish jammer (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 11529.96 approx., Oct 18 at 1512, JBA carrier direct, Hikari FM? But at 1530 no signal into Utah remote. Into UTwente at 1530, S9+15/25 of ME music and talk on 11530.010, Dengê Gel or Turkish jammer; at 1510, Arthur Pozner reported 11530 with Turkish jammer, 11520 Dengê Gel (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 11515, Oct 19 at 0628, JBA carrier direct, and a slightly stronger JBA carrier on 11530.02, probably Kurdo/Turko radio war; see also NORTH AMERICA (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 15140, Oct 20 at 1444, S9/S6 JBA carrier, but soon off. Could it be RHC? This frequency had been absent for weeks, long before the latest National Blackouts. Nothing else scheduled now, but maybe

RFA Tajikistan tuning up for later Uighur at 16-17 or even VOA English via Woofferton at 17-18? After 1500 nothing into Maryland SDR when RHC would have been Esperanting on Sundays (Glenn Hauser, OK, WOR)

UNIDENTIFIED. Oct 21 at 2218, plenty of skip on 10m, beacons and phone, including one from Japan, but almost vacant above 28.5, more than a MHz going to waste -- except I encounter two apparent repeaters: 29040 AM between US stations; and 29620 FM, S9+10 with a KM0 from Colorado and W2FW. They are both horn players.

QRZ.com: ``W2FW USA flag USA, PETER J HARVEY, 6 CENTRAL AVE, TROY, NY, 12180-7292, USA`` Refers only to a 2-meter repeater, see thebig94.com --- It seems Jock Elliott is involved in that. Two tones beep at cambios. Where these 10m repeaters are, their own callsigns, and where their inputs come from I have no idea, but I suppose there be some reference for them (Glenn Hauser, OK, WOR) see also USA

TIPS FOR RATIONAL LIVING

PLEASE, DO ME, AND YOURSELF A FAVOR. Vote FOR Harris and against Trump, who is evil, ignorant and incompetent. Encourage your friends that way as well, especially any who may not be interested in voting, so there will be no doubt who won. Of course you and they must be registered. Thank you (and thanks to DX compatriots who tolerate my TFRLs!) Glenn
